

Aetiket eCards

for Churches and Christian Service Organizations
by Eric Fandrich

Aetiket eCards is a new internet tool which enables users to send beautiful images together with personal messages to family, friends, and colleagues.

From the high quality themed portfolios one can send an engraving of the Nativity by Doré as a Christmas eCard, a bouquet of roses by Redouté as a Mother's Day eCard, a photograph of a mountain waterfall as a Get Well eCard: the possibilities are unlimited.

In addition to the public eCards, Aetiket eCards provides Church Portfolios for Churches and Christian Service Organizations. These unique Church Portfolios are designed for use in ministry, outreach, and all manner of communications with congregations, visitors, missionaries, and staff. Uses for Church Portfolios include: Thank You eCards to welcome visitors, Announcement eCards to send to members about events throughout the Christian year, Prayer eCards to send to members of a prayer circle, etc.

Hymns and arrangements of church music by Roger Bergs and others are also provided with the Church Portfolios to complement the images and message.

Aetiket eCards also provides Private Portfolio pages for users who wish to select images for their private use. Examples of uses for a Private Portfolio include Wedding or Engagement Pictures to send to friends and family, or Original Works of Art from an elementary school class to send to friends and parents.

The use of Aetiket eCards is free, and the public site is located at:

<http://www.aetiket.com/ecard/>

There is a charge of \$25 per year for a Church or Private Portfolio of 4 images to defray the setup costs. Additional images can be added or changed at any time for only \$5 per image. Church and Private Portfolio users will receive a URL (internet address) for their Portfolio. This URL is not linked to the home page or other page on the Aetiket eCard site. Church and Private Portfolio users may, at their own discretion, let others know the URL and are free to link the URL to their own sites (if any) if they so desire.

There are no charges for public contributions of original artwork or photographs.

Aetiket eCard is also available as a turnkey eCard solution for FileMaker Pro users and webmasters. Interested users should contact me at the following address for more information about this option:

EricFandrich@aetiket.com

Thank you for your consideration!

Sincerely,

Eric Fandrich
